

ELECTRICAL APPRENTICE

Salary: £15k

Are you wanting to make a difference at one of Europe's busiest transport hubs? We are a business underpinned by our engineering infrastructure and you can now be part of our team to develop our broad and complex range of engineering infrastructure.

Job summary:

You will play an integral part in the function of the Maintenance Section whilst undertaking practical training in most aspects of the Board's assets, supplemented by attendance at college in order to obtain the required qualifications outlined in the Level 3 apprenticeship standard. Whilst the bias of the post will be Electrical, multi-skilling is required and training will be given in both Electrical and Mechanical disciplines. This will be a 3 to 4 year placement.

Skills and Qualifications:

- Minimum of 4 x GCSE's (or equivalent) at Grades 9 to 4, to include Maths, English and a Technical/Science related subject
- Should not have a fear of heights, enclosed spaces or working over water
- Be able to integrate into a team
- Be able to carry out the full range of physical tasks associated with the position
- Familiarity with the working environment e.g through work experience or college attendance would be desirable
- Live within easy reach of Dover or have means of transport

Please send a CV and covering letter to the e-mail address below
