

# STRATEGIC PLANNING ANALYST

(13 MONTH PLACEMENT)

£17,500k

The Business Optimisation team sits within the Corporate Development and Operational Businesses department. The team has an important role in providing analytical support to a number of areas of the business, from forecasting in our core ferry business to flow modelling in our expanding cargo business, always ensuring we drive efficiency.

## ***Job summary***

A very exciting opportunity has arisen for a 13 month placement to join the team after July 2020 (or earlier depending on availability), providing high quality analytical support and insight across the business. The role will include providing reports and analysis on existing business markets, new business opportunities and understanding emerging risks.

To work with us you will need to have studied or currently studying for an Economics, Financial or Business Degree that incorporates an economic module and YOU must be able to demonstrate financial awareness and the ability to manipulate numbers. You will be confident in applying your academic learning to solving real business problems and will be required to communicate effectively at all levels within the organisation.

Please send a CV and covering letter to the email address below.
